GT8
Datasheet

Touchless Time & Attendance with Advanced Facial Recognition

The GT8, our flagship workforce management solution, features a large, responsive colour display for a user-friendly experience. It offers a choice of secure scanning options, including lightning-fast facial recognition for touch-free clocking in under a second. Powered by Android and engineered for seamless integration with your existing systems, the GT8 ensures your workforce data is secure and compliant.

Ultimate Flexibility
Empower your employees with a choice of facial recognition, badge scan or finger scan for fast and effortless clocking.

Simple Integration
The GT8 seamlessly integrates with many leading T&A software applications, allowing time collection data to be easily transferred.

Compliance Confidence
Reduce risk and ensure adherence to data storage regulations with our robust biometric security features.

Highly Adaptable
The GT8 provides the functionality for self-service applications, booking services, and employee-engagement.

Installation Flexibility
Choose from a range of power options, including Power over Ethernet (PoE) connectivity, for a fast and cost-effective deployment.

Robust & Secure
The GT8 is engineered for high-traffic environments.

TECHNICAL SPECIFICATIONS

Display	8" capacitive multi-touch screen High resolution color display
Operating System	Android
Memory	16GB high performance flash 3GB RAM
Processor	1.6GHz Quad-Core Processor
Power	12V DC jack Power over Ethernet Internal lithium-ion battery back-up
Readers	Optional readers: Barcode Mag Stripe RFID Proximity Readers
Biometrics	Facial recognition Fingerprint reader
Kiosk Experience - Complex Data Display	Ability to surface Employee Self Service data on the terminal, including reporting, schedules, vacations
Inputs/Outputs	4 + 2 internal USB2.0 ports I/O relay module (optional) 5 mega-pixel, wide-angle camera 2x integrated speakers & microphone
Touchless Solutions Range	Can use both proximity cards and facial recognition to provide a touchless workplace environment
Host Connectivity	Ethernet HTTPS WiFi Connectivity (Optional)
High Security	Encrypted data storage Secure biometric encryption Security fixing to wall bracket Hardware backed keystore
Operating Temperature	32°F to 95°F (0°C - 35°C) max continuous Humidity 5-90% non-condensing
Dimensions	216mm x 206mm x 78mm

GT Services

Our proprietary cloud platform connects your HCM devices to your software, building an integrated network. This allows real time remote diagnostics and data management across all connected devices. This subscription service will streamline your HCM processes and reduce your technology and data challenges, while the enhanced warranty offers peace of mind for the lifetime of your device.
