

GT CLOCKS
PEOPLE AND DATA MANAGEMENT

Product Brochure

Delivering business intelligence at a glance

GT Clocks is a leading provider of innovative Human Capital Management (HCM) hardware solutions. With over 30 years of experience, we design and manufacture best-in-class time clocks renowned for their durability, ease of use, and cutting-edge technology.

Our Products

Our time clocks are simple and effective devices created to provide a robust HCM system for the improvement of time management and HR protocols.

Our terminals have been designed to streamline employee engagement, empowering a business to effortlessly improve workforce efficiency.

GT Services

GT Services provides priority end-to-end technical support, and access to our remote data and device management platform. Through GT Services, your clients benefit from reduced costs, minimal downtime, and a more efficient HCM solution.

GT4

Cost Effective with Evolved Design

The GT4 delivers exceptional quality and functionality, while providing value for investment. Featuring programmable function keys, a high-resolution color screen and optional fingerprint reader, this customizable time clock is ideal for demanding environments.

Customizable Configuration

The 8 function keys can be configured to provide the ideal nested menus for your workplace.

Simple Integration

The GT4 seamlessly integrates with many leading payroll softwares, allowing time collection data to be transferred.

Compliance Confidence

Reduce risk and ensure adherence to data storage regulations with our robust biometric security features.

Rugged Design

The GT4 has a durable and robust ABS casing, designed to withstand high-demand environments.

Choice of Reader Options

Choose from a range of reader options, including mag stripe, proximity, barcode or biometric fingerprint.

Lifetime Hardware Warranty

Enhanced warranty giving peace of mind for the lifetime of the clock.

Key Features of the GT4

-  Linux Operating System
-  4.3" Display
-  Color Screen
-  Alphanumeric Keypad with 8 Function Keys
-  Fingerprint Reader
-  Barcode/Mag Stripe Reader
-  Variety of Contactless Readers
-  PoE

GT8

High Performance with an Intuitive Interface

The GT8, our flagship device, boasts a large, responsive color display for a user-friendly experience. It offers a choice of secure scanning options, including facial recognition, fingerprint scanner, and more, catering to your preferences.

Ultimate Flexibility

Empower your employees with a choice of facial recognition, badge scan or finger scan for fast and effortless clocking.

Simple Integration

The GT8 seamlessly integrates with many leading payroll softwares, allowing time collection data to be transferred.

Compliance Confidence

Reduce risk and ensure adherence to data storage regulations with our robust biometric security features.

Highly Adaptable

The GT8 provides the functionality for self-service applications, booking services, and employee-engagement.

Installation Flexibility

Choose from a range of power options, including Power over Ethernet (PoE) connectivity, for a fast and cost-effective deployment

Robust & Secure

The GT8 is engineered for high-traffic environments.

Lifetime Hardware Warranty

Enhanced warranty giving peace of mind for the lifetime of the clock.

Key Features of the GT8

-  Android Operating System
-  8" Color Display
-  Capacitive Touch Screen
-  Fingerprint Reader
-  Facial Recognition
-  Multiple Proximity Reader Options Available
-  Barcode/Mag Stripe Reader
-  PoE

GT10

Designed For Advanced Self-Service

The GT10's large color display with capacitive touchscreen empowers self-service HR functions to reduce time lost to administration, while the enhanced security protection secures sensitive data.

Plug & Play

You can deploy the GT10 quickly and easily, with guided set-up and on-hand tech support.

Innate Integration

The GT10 seamlessly integrates with many leading payroll softwares, allowing time collection data to be transferred.

Biometrically Enabled

Choose from ultra-secure fingerprint or facial recognition biometrics.

Highly Adaptable

The GT10 provides the functionality for self-service applications, booking services, and employee-engagement.

Easy to Use

Designed with a user in mind, the layout is intuitive and simple to navigate, empowering all employees to adopt and use it.

Robust & Secure

The GT10 is designed specifically for continuous use in demanding environments with high traffic.

Lifetime Hardware Warranty

Enhanced warranty giving peace of mind for the lifetime of the clock.

Key Features of the GT10

-  Android Operating System
-  10" Color Display
-  Capacitive Touch Screen
-  Fingerprint Reader
-  Barcode/Mag Stripe Reader
-  Multiple Proximity Reader Options Available
-  Facial Recognition
-  Lockable Case
-  PoE

Lifetime Warranty

Every clock includes an enhanced warranty for the lifetime of the device, providing you with complete peace of mind. This guarantees a like-for-like replacement to your specified location, no quibble.

Simple, Unified Control

Harnesses the power and protection of the cloud to provide a simplified ecosystem that not only streamlines your data and device management but also ensures compliance with data and privacy regulations.

The GTConnect clock management platform is a subscription-based service that offers seamless integration with leading payroll software. By establishing a scalable and flexible network across devices, you reduce both development and operational costs while offering total data security peace of mind.

This service is included with your device to ensure that your data remains secure while also offering convenient access to analytics and information that can help improve productivity and performance.

Remote Device Management

Centralized management of your networked devices means you can easily manage updates, run system diagnostics and check the real-time status of your entire estate, whether that's one clock or 10,000.

Data Management

Simplify integrations from devices to payroll software with our 'cloud-to-cloud' platform.

Identity Management

Ensure compliance with data protection using encryption and informed consent. Biometric and personal data can be managed, distributed, and backed up securely and automatically throughout your network of devices.

Remote Device Diagnostics

The cloud-based diagnostic platform minimizes the disruption, reducing downtime and improving service.

System Management

With seamless backup and recovery services, your data is automatically saved to the cloud, ensuring that it is always secure, available and protected against data loss.

Technical Support

Get technical support direct from the manufacturer with guaranteed response and resolution times.

Our People

VP Commercial

Ben Lagden

Ben has been with GT Clocks since 1999. Ben has extensive knowledge of the Human Capital Management market and the environments it serves. He has worked in many roles, including running development teams, professional services consultancy, and management.
