

GT10-2L

Datasheet

Designed For Advanced Self-Service

The GT10-2L's large color display with capacitive touchscreen empowers self-service HR functions to reduce time lost to administration, while the enhanced security protection secures sensitive data.

Highly Adaptable

The GT10-2L uses Linux OS to provide functionality such as self-service applications, motivational and informative audio-visual content, training modules, booking services, and employee engagement functionality to every member of staff in an organization. The platform is flexible and open, making it suitable for deployment as a user-friendly kiosk in any industry. Secure user identification and access to web-based functionality can enhance user experience, provide access to services and drive efficiency.

Robust & Secure

Designed specifically for continuous use in demanding environments with high traffic, the GT10-2L is both robust and secure. To achieve this, it uses a powerful industrial-grade quad-core processor, together with a range of power options, including Power over Ethernet (PoE) connectivity for fast, cost-effective installation. The 'kiosk' mode option means user operation can be easily restricted to permitted applications if preferred.

Easy to Use

Designed with an end user in mind, the layout is intuitive and simple to use, empowering easy adoption into a business.

Key Features

-  Linux
-  10" Color Display
-  Capacitive Touch Screen
-  Fingerprint Reader
-  Multiple Prox Reader Options
-  Barcode/Mag Stripe Reader
-  Lockable Case
-  PoE

GT10-2L

Datasheet

TECHNICAL SPECIFICATIONS

MODEL	DETAILS
Display	10" capacitive multi-touch screen 1280 x 800 high-resolution color display 16:10 aspect ratio
Operating System	Linux
Memory	16GB high performance flash 4GB RAM
Processor	1.6GHz quad-core processor
Power	12V DC jack POE/POE+ Ethernet IEEE 802.3af/at Internal lithium-polymer battery option to run the terminal during power failure for up to 2 hours
Readers	Optional readers include: Barcode Magnetic stripe RFID proximity readers Multi-Tech Reader
Biometrics	Fingerprint reader
Kiosk Experience - Complex Data Display	Ability to surface employee self service data on the terminal, including reporting, schedules & vacations
Inputs/Outputs	4 + 2 internal USB2.0 ports I/O relay module (optional) 5 mega-pixel, wide-angle camera 2x integrated speakers & microphone
Host Connectivity	Ethernet: 10/100/1000 Optional WiFi module
Customisable Interface	Control of information displayed Custom application development
High Security	Encrypted data storage at rest and during transmission to host Secure biometric template encryption Security fixing to wall bracket Lockable case Hardware backed keystore
Operating Temperature	0°C - 35°C (32°F to 95°F) max continuous Humidity 5-90% non-condensing
Dimensions	230mm x 275mm x 96mm Height with optional biometric reader: 300mm
Product Weight	5.6lbs / 2.54Kg (excludes optional modules)
GTConnect	Subscription service providing remote diagnostics and data management

The GT10-2L enables a wide range of functions, which means that HR processes such as employee benefits, leave requests, recruitment, training and payroll can be effortlessly managed.

Advanced support for web browser functionality provides feature-rich data information pushed from the server ensuring faster development of custom user interfaces.

GTConnect

Our proprietary cloud platform connects your HCM devices to your software, building an integrated network. This allows real time remote diagnostics and data management across all connected devices. This subscription service will streamline your HCM processes and reduce your technology and data challenges. With GTConnect, your workforce management is simple.
